Provincial Weekly News Bulletin

Alberta Judging Teams Win
Considerable distinction has been
brought to the province of Alberta
during the past week by the success
of the stock judging teams which re-
presented the province at the Royal
Stock show at Toronto.

The team in senior judging from
Vegreville comprised of Albert Jones
and Peter Wylie, was successful in
winning the Canadian National stock
judging competition against the other
western teams at Toronto. This team
was the C.P.R. silver trophy in the
senior judging competition of the boys
and girls clubs in Northern Alberta
some weeks ago, and also the free trip
to the Toronto show offered by the
Canadian National Railways. The
team was coached by P. H. Newcomb,
district agriculturalist of the provincial
department at Vegreville.

The Macdonald cup in the stock
judging contest at Toronto was won
by the team from Alberta university
comprised of Thos. Devlin, Wm. Gen-
tleman, Mabel McVea, C. K. Johns
and L. H. Thomson, in charge of Prof.
Sackville of the animal husbandry de-
partment of the university. Premier
honors in the entire competition were
carried off by Devlin.

Dates for Seed Fair
The dates for the annual provincial
seed fair, to be held this year at Cal-
gary are announced tentatively as
being January 29 to 31. The arrange-
ments are in the hands of the provin-
cial department of agriculture and the
Alberta Seed Growers' association.

Municipal Convention
The annual convention of the Al-
berta association of municipal dis-
tricts will be held this year at Cal-
gary on November 27 and 28.

Steady Improvement in Grain Quality
Returns of grain grading for ten
months of the present year show a
continued increase in the quality of
grain produced in the province. To
the end of October of this year a total
of 45,766,776 pounds of grain had
been graded, compared with 38,291,
155 for the same period of last year.
Of the amount graded this year, 41
per cent graded special compared with
37.6 per cent last year, and 41.3 per

cent graded first compared with 41.4
per cent last year. There has been
consequent drop in seconds from 16.9
per cent last year to 11.3 per cent this
year.

The increase in cream graded this
year over last year in the ten months
has been 21.5 per cent. The amount
of butter graded in the ten months
has been 13,088,233 pounds, compared
with 9,657,592 pounds, for the same
period of last year, an increase of
43.6 per cent.

Holds Corn Show
Another stage in Alberta's progress
as a corn growing country was marked
last week with the holding of a
corn show at Milk River, south of
Lethbridge. There was a good num-
ber of entries and the exhibits were
of good quality.

Indians Hold Convention
More than a hundred delegates from
every Blackfoot tribe on the contin-
ent attended the first convention of
the tribe at Macleod, in Southern Al-
berta, last week. The reports of the
convention describe it as a conciliatory
and sober-minded, intelligent Indian
body upon the discussion of problems
peculiar to them and the development
of their reserves. Many of the mem-
bers of the Blackfoot tribes in Al-
berta are successful farmers.

Attendance at Agricultural Schools
Attendance at the agricultural
schools this year shows a considerable
increase of interest in the schools. The
attendance at the Oils school of agri-
culture this year has reached 150. The
attendance last year was 132. The at-
tendance at the agricultural school at
Calgary is now 79, with eight or
ten more to come, compared with a
total attendance last year of 70.

Alberta's Good Record
A crop map prepared by the Cana-
dian Pacific Railway, received at the
department of agriculture at Edmon-
ton, shows that of the 32 stations on
the C.P.R. in the west which shipped
more than a million bushels of wheat
in 1923-24 season, 29 were in Alberta.
Two stations on the C.P.R. in the west
shipped more than two million
bushels, one of them being in Alberta.
This was Vulcan, south of Calgary.

der "see" or "haw" knows it all right
and does so.

The "hunkie" is of different colors,
some being entirely black. How-
ever, colors do not lessen or in-
crease the efficiency, and where
the colors match it merely reflects
the preference of some driver who
takes special pride in his team. The
dogs are fed but once a day, then
only in the evening. At the end of a
trip the men cut the wood for a fire,
unload and prepare their camp and
have their meal while the dog-feed
is being prepared, viz. either thawed
or cooked. To prevent fighting each
dog is tied up to a separate tree or
the driver stands over them with a
whip while they are eating. The regu-
lation meal is from three to five
pounds and consists generally of dried
or frozen fish meat, or warmed
corn, oatmeal, or rice to which tallow
is added to get the needed fat. In the
winter the dogs rely on the snow for
drink.

Like the dog of civilization, he is
also subject to distemper and every
now and then some mysterious ep-
idemic will kill the animals in sum-
mer. They are decidedly clannish
and herd together in cliques. A dog
who wants to join his clique will
make a wide detour to avoid falling
among those of another clique.

Whereas the Indians let their dogs
shift for themselves in the matter of
quarters, the Police dogs are kept in
kennels in a corral with boughs of
trees serving in the place of straw,
a practice which serves to keep them
out of the wind and renders them
more gettable when wanted quickly.

IN CASE

The landlady was showing the prospective
lodger over the house.
"I think you'll find everything com-
fortable," she assured him. "This is
the living room."

He nodded his head inside, and nod-
ded.
"An' this," said the landlady, con-
ducting him down a way that was
dark. "This is the bedroom. Good
night, hurry, you see."

"Quite so," assented the victim,
withdrawing.
"An' this," proceeded the dame, "is
our bathroom. Nice little room, isn't
it?"
The young man stared blankly.

"Yes," he agreed. "I don't like
'em." "Oh, broke in the landlady, "if you
don't ever want to use the bath, I
dunno we could find another place
for the coal."

"GOOD OLD BOB"
ROGERS IS MADE
THE TREASURER

Toronto, Nov. 17.—The Liberal and
Conservative Association of Canada
was formed today at a conference of
representatives from provincial organi-
zations in all but New Brunswick of
the nine provinces of the dominion,
assembled here at the invitation of
the Ontario Conservatives.

Right Hon. Arthur Meighen was
elected honorary president and was
enthusiastically endorsed as leader of
the party. J. R. McNichol of Toron-
to was elected secretary, and Hon.
Robert Rogers, of Winnipeg, treasur-
er. The latter tried to decline the
nomination, but the gathering drown-
ed out his protest with cries of "good
old Bob" and no other name having
been advanced for the post, Mr. Mc-
Nichol as chairman, refused to per-
mit Mr. Rogers to decline.

Eighteen vice-presidents, compris-
ing one woman and one man from each
province, were appointed. The provin-
cial organizations will be asked to
nominate members of the executive
which will co-operate with the domi-
nion committee for organization pur-
poses. The western vice presidents
elected were:

British Columbia—Mrs. R. P. Green,
Victoria, and R. L. Maitland, K.C.,
Vancouver.
Alberta—Mrs. R. J. Russell, Edmon-
ton, and Hon. R. B. Bennett, Calgary.
Saskatchewan—Mrs. J. R. Wilson,
Saskatoon, and Fred Somerville, Regina.

Manitoba—Mrs. Brown, Winnipeg.
Major W. W. Kennedy, Winnipeg.
The decision to form a dominion-
wide organization was formed after
a special committee of 20 had confer-
red during the luncheon recess and
drawn up three resolutions.

HOSPITALS CARRY
TOO MUCH BURDEN

Edmonton, Nov. 15.—That the Al-
berta government should assume a
larger share of the responsibility for
hospital services within the province,
was the general tenor of remarks made
by Dr. A. E. Archer, of Lamont, at a
joint banquet of the Alberta Regis-
tered Nurses' Association, at the Mac-
donald hotel, Edmonton, Wednesday
night. Dr. Archer was of the opinion
that the province should take some
steps which would remove from the
shoulders of the different municipali-
ties the burden imposed through non-
collectibility of fees on out-patients,
and urged that an educational grant
be made to partially defray costs of training and graduation
of nurses.

These proposals were made as part
of Dr. Archer's proposal of a toast to
the provincial health department.
W. C. Laidlaw, deputy minister of
health, appearing in the unavoidable
absence of the minister, Hon. Geo.
Headley, said in replying to the toast
that he agreed with much of what Dr.
Archer had said. Lack of funds was
undoubtedly hampering the develop-
ment of the services of the hospitals.
The matter was before the provincial
government at the present time, as
also was the question of providing for
the care of incurables, and an ear-
nest attempt would be made before
long, he could safely promise, along
the lines of relieving the burdens
complained of.

GLYCERINE MIXTURE
FOR GAS ON STOMACH

Simple glycerine, buckthorn bark,
etc., as mixed in Adlerika, helps any
case gas on stomach in TEN minutes.
Most medicines act only on lower
bowel but Adlerika acts on BOTH up-
per and lower bowel and removes all
gases and poisons. Brings out matter
you never thought was in your sys-
tem. Excellent for obstinate constipa-
tion. Guards against appendicitis.

MILBURN'S
HEART AND NERVE PILLS

Are a specific for all diseases and
disorders arising from a run-down con-
dition of the heart or nerve system.
They correct such troubles as Palpita-
tion of the Heart, Shortness of Breath,
Sneezing and Sinking Spells, Pains
and Dizziness, Nervousness, Head-
aches and are especially indicated
for all troubles peculiar to the female
sex.

For sale by all druggists and dealers.

LOS ANGELES WATER SUPPLY
SEIZED BY RANCH RAIDERS

Bishop, Cal., Nov. 17.—Los Angeles
aqueduct water gates near Lone Pine
were captured yesterday by a small
army of Owens valley men who
brushed aside city employees who
were on guard and diverted Los An-
geles' chief source of water into the
Owens River.

Determined to keep the water of
the aqueduct flowing through the spill-
way until Los Angeles settles its long-
standing water feud with valley ranch-
ers in a manner acceptable to them,
the raiders defied aqueduct authori-
ties and the Inyo county sheriff to
drive them out. The raid today had
settled into an organized occupation
backed by the efforts of several hun-
dred men and women. The ranchers
claim that the aqueduct has robbed
their farms of water necessary for ir-
rigation.

WHAT NEWSPAPERS SELL

Newspaper men, as a rule, have but
two things to sell, space and sub-
scriptions; and it would be just as
consistent to ask your grocer for a
dozen oranges "just to fill up" as to
ask an editor for a dozen lines in his
paper to boost business, or some per-
son whereby the promoter may realize
a revenue, with the idea that you
are doing a kindness in helping to
"fill up" space. Try getting a free
luncheon at the hotels or restaurants
"just to fill up."

THE LETTER "E"

Someone has advanced the opinion
that the letter "e" is the most unfor-
tunate letter in the English alphabet,
because it is always out of cash, for-
ever in debt, never out of danger, and
in hell all the time. For some reason
he overlooked the fortunes of the
letter, as we call his attention to
the fact that "e" is never in war, and
always in peace. It is the beginning
of existence, the commencement of
ease, and the end of trouble. With-
out it there would be no meat, no
life and no heaven. It is the centre
of all things, makes love perfect, and
without it there could be no editors,
devils nor news.—Ez.

CONSERVATIVES
HAVE 412 SEATS

London, Nov. 15.—With the declara-
tion Thursday of the election to par-
liament of the members of the com-
bined Scottish universities—St. An-
drews, Glasgow, Aberdeen and Edin-
burgh—resulting in the choice of one
Liberal and two Conservatives, the
final standing of the parties in the
house of commons in the new parlia-
ment will be as follows:

Conservatives	412
Labour	152
Liberals	42
Constitutionalists	3
Others	6
Total	615

Life is like tennis in that the play-
er who doesn't serve well usually
loses the game in the end.

EUCHRE CRAZE IS
DISRUPTING HOMES

Toronto, Nov. 16.—The police in-
tend to put a stop to euchre parties
for gain, and Crown Attorney Armour
stated in the police court Friday that
in future he intends to ask for a jail
sentence as well as a fine, and that in
addition to those who promote such
parties, these attending will be pro-
secuted.

For some time the morality officers
have been receiving complaints from
men that their wives were rarely at
home on account of these parties, and
that they take the children with them,
leaving them to sleep in the hall as
they played euchre.

Calgary, Nov. 16.—Service on the La-
combe-Coronation branch of the Cana-
dian Pacific will not be among the
matters placed before the session of
the railway commissioners meeting
here on Monday and daily service will
be continued there, according to in-
formation received by the Calgary
board of trade on Thursday morning
from General Superintendent J. M.
Cameron, of the C.P.R.

Ratepayers' Meeting
Wednesday Next.

The annual meeting of the ratepayers of Wetaskiwin, is to be held on Wednesday evening of next week, December 3rd, at eight o'clock, in the Angus Theatre. This meeting provides all citizens interested in municipal affairs with an opportunity of obtaining full information regarding the manner in which the business of the city is being conducted, and of offering suggestions for its general betterment. An opportunity is also given to ask questions.

The purpose of this meeting is a laudable one. The wealth of information on financial affairs provided in the statements submitted by the chairman of the different departments respecting the work of their committees during the year, enables the citizen to obtain information on current municipal affairs.

The candidates who are aspiring for office are also invited to address the burgesses and to announce and explain any platforms they desire to have adopted by the citizens.

For several years the annual meeting of Wetaskiwin has proven to be very interesting and profitable to many who do not follow the affairs of the city very closely. Let there be a large attendance on Wednesday evening, as His Worship Mayor Montgomery and the aldermen have a good report to submit on the year's operations.

Nominations Take
Place on Monday

As intimated last week, the nominations to fill the several vacancies on the council and school boards, take place on Monday next, between the hours of ten and noon.

Up to the present civic affairs have been quiet in the city, and there may not be an election. It is now almost a certainty that Mayor Montgomery will be re-elected for a fourth term by acclamation.

This year Ald. Brown, Chandler and Gotthard retire automatically from the aldermanic board. Ald. Chandler may not be a candidate for reelection, but it is understood that the other retiring members will stand for another term. Friends of Mr. Scott Farnham and Mr. James Scott are urging these men to come out for aldermanic honors, but insofar as we can find out they have not yet given their consent.

It is now expected that Trustees MacEachern, McMurdo and McPolgan will be candidates for reelection for the public school board. There is rumor of a "dark horse" looming up on nomination day, and if there is, there will likely be an election for the school board.

At the end of the year, Trustees Baxter, Oakes and Turner retire from the board of the Sacred Heart separate school board, but there has not been an election to fill the vacancies on this board for several years, and it is not likely there will be a contest this year.

The time before nomination day is now very short, and if there is to be an election, no time must be lost in getting the candidates into the field.

Who Pays?

The historic town of Old Battleford is undergoing an experience that may be profitable to a good many other western communities. The residents of that town shared with those of other western towns the ambition to build up a great city. To that end they borrowed and spent in advance of the requirements of the time. Now they find themselves saddled with a debt of \$700,000, with payments aggregating \$300,000 in arrears. The bondholders have secured judgment against the town and if it is carried into execution the taxpayers will be liable with taxes at the rate of 640 mills, or nearly three-quarters the assessed value of their property.

Should that be done the result is plain enough, everyone who bought property in the town would lose it. The one sane thing for the property owner to do would be to tell the bondholders to take the property—and get out if he could do so. The government of Saskatchewan is intervening in the hope of saving the town from extinction. People throughout the west generally will hope that the effort may be successful, alike for the

sake of the people who are threatened with ruin, and because of the sentiment which must always attach to one of the points where the incoming whites drove stakes far back in the beginning of things.

But the moral of the incident should not be lost. Battleford people have now no sort of misunderstanding about who it is that is ultimately responsible for the debts of a community. They know without any involved process of reasoning who has to pay when the boom collapses, and who has to go into bankruptcy if the paying cannot be done. It would have been a good thing for Battleford and its people if years ago those who had staked money in the place had formed themselves in a Property Owners' Association and had consistently insisted that for every dollar mortgage placed upon their homes there must be a dollar's worth of return value actually in sight.—Bulletin.

Western Business Has
Balance on Right Side.

During the past two months there has been a marked improvement in business. The buying power of the agricultural communities will be greater than it has been for several years. Throughout the west there is a feeling that business is on the upgrade, and as a result of this fact will operate with more confidence and retailers will feel justified in stocking a liberal amount of goods, while always exercising care not to overstock. Retail business should feel the benefit of both improved business sentiment and the increased buying power of a big portion of the people.

This year wheat has advanced more than fifty per cent over 1923 prices. Coupled with the lower harvesting costs the farmers of the west have infinitely more money. It is conservatively estimated that the West will have \$175,000,000 more than last year. Bankers report that many of the men who have produced this wealth have already met all their bills, are now entirely out of debt and with good bank accounts to face another season. Giving the experience of leading bankers and financial men who have recently canvassed the West, a Montreal financial paper declares that "the west has got its business to a point where the balance is on the right side of the ledger."—Commercial Review.

What Can
I Do?

Western Canada is entering upon a new era of prosperity. A change for the better for individuals in all walks of life is seen on every hand. The prospective improvement will be reflected in the private and business life of all concerned. Business men from Eastern Canada who in recent years have advanced capital for the development of western industry, whether it be agricultural or otherwise, rural or urban, view the general situation with great satisfaction. Western business, though somewhat more backward in showing optimism over the changing conditions, are also looking on the improved situation with a more cheerful view. The prosperity of the country as a whole depends to a greater or lesser extent upon each and every individual—and every one of us can aid in advancing the more prosperous future that is forecast.

One reason cited by the eastern business men and bankers for advancing the statement that the general business situation in the west is improving, is that the old outstanding obligations are being liquidated. In recent years business in the West has been greatly handicapped by the fact that merchants both retail and wholesale, have been compelled to carry a great many of their customers on extended credit. This has meant the tie up of a vast amount of capital in book debts and has been detrimental to the further development of the country. This condition was not the making of any one person or group of persons, but the result of general crop conditions, high cost of production, and low return.

During the last two years this has been altered to a considerable extent. Last year the West was blessed with a bumper crop. This year the crop was not so large, but the price was better and the cost of production was lower. Between the two years the return has been sufficient to enable the ultimate consumer to liquidate some of his outstanding obligations as well as to keep pace with his immediate requirements.

The liquidating of these old debts has had a far reaching effect and in fact works around into a circle. The man who sells his crop and is able to settle a debt that has been outstanding for several years has done his share towards creating better conditions. The payment may have been made to the local storekeeper, millcherry man or lumber man. A portion of that money stays in the com-

Years

munity in which the debt was contracted and later paid. The merchant who received the payment was placed in the position of being able to pay his wholesaler, who in turn passed the money on into various other channels, enabling individuals in the employ of other industries to purchase more of the produce of the farms. So when the farmer gets his money for his grain and pays off his local merchant he is starting an endless chain in motion that reaches round the whole country. So it is quite apparent that the prosperity that is in view for Western Canada can only become an accomplished fact through the realization that for all to share in this prosperity each and every one must do his share to promote it.

A local merchant informed us that on November 8th, \$1,300.00 was sent away from Red Deer to mail order houses. A great part of that sum was sent by people getting wages from Red Deer business men. It is a disgrace, but what can be done about it? The governments, both provincial and federal, favor the mail order house at the expense of the small country merchant. The municipal governments have no say in the matter. The mail order house demands cash in advance and does not allow inspection of the goods except under difficulty.—Red Deer News.

That the Central Alberta Farmers' Cooperative Marketing association, with headquarters at Red Deer, is doing its share of business in handling agricultural products in the district is evident from a review of its transactions during the past season. In that time a total turnover of some \$355,000 worth of farm products was handled for the members of the association, and from the growth made during the first part of the present year, it is estimated that the volume of business handled this year will run close to \$1,000,000.

Her 5 Children Had
Severe Attacks of
WHOOPING COUGH

This is one of the most dangerous diseases of children, especially to those under five years of age.

It starts with a fever and cough, sneezing, watering of the eyes and an irritation of the throat.

Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought on by the "whoop."

On the first sign of the "whoop" we would advise the use of
Dr. Wood's
Norway Pine
Syrup

Mrs. S. H. Craig, R.R. No. 1, Palmerton, Ont., writes:—seven years ago, last winter, our five children had very severe attacks of whooping cough.

We were recommended by our doctor to use Dr. Wood's Norway Pine Syrup, which we did with the greatest of success. It cleared out the throat and bronchial tubes, and loosened the phlegm so that they were able to cough it up, and in no time I had quashed the "whooping!"

"Dr. Wood's" is put up only by The T. Millburn Co., Limited, Toronto, Ontario.

"See That You Get The Genuine!"

CHILDREN BECOME
LITTLE MERCHANTS

Every year as the Christmas season draws near, the children of the Junior Red Cross become little merchants of a certain Christmas ware which they try to sell to a kindly intended public.

This Christmas attraction is nothing other than the pretty green and red sticker sold on behalf of the Children's Hospital in Calgary. The Alberta division, like all other Red Cross divisions, looks to the sale of its Red Cross seals to give an extra fill-up to the funds of the Crippled Children's Hospital at the end of the year. As a rule there is evidence of a keen desire on the part of the public to support the sale of seals, and many repeat orders come through for more.

The seals bear the old familiar greeting of "A Merry Christmas and a Happy New Year," they consist of a red cross on a green ground and in the centre is the emblematic maple leaf and circling round are the words "Junior Red Cross Alberta." The cost of the seals is one cent per seal. All monies from sales go to the Junior Red Cross hospital, and are credited to the branches as donations.

There is the possibility of winning the Lieut.-Governor's medal which will be awarded to that branch which makes the largest score at selling seals. The Alberta division will supply any friends who are unable to purchase seals from the school children on receipt of one dollar for one hundred seals. Address the superintendent, Junior Red Cross, Beveridge Building, Calgary, Alberta.

FIERY CROSSES
REACH TORONTO

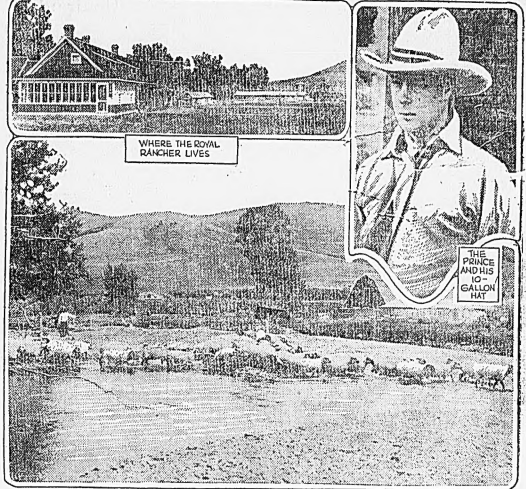

Toronto, Nov. 23.—In the burning of a "fiery cross" by white-robed figures in the northern section of Trinity College grounds and simultaneously another in North Toronto last night, Toronto experienced its first contact with the Ku Klux Klan.

Eye-witnesses reported that about 8:30 p.m. either eight or nine white-robed figures appeared on the college grounds carrying a wooden cross about six feet long. After lighting the figures went through a ceremony which lasted ten minutes and then disappeared across the grounds.

The police patrolled the grounds the rest of the evening. The cross burned in North Toronto was much larger, being eight or ten feet in height.

God tempests the wind to the storm lamb.—Storke.

Prince of Wales' "Little Grey Home in the West"

THE PRINCE'S THOROUGHBRED SHEEP

After having enjoyed about as much privacy as the proverbial goldfish during the international polo games near New York, the Prince of Wales retired to the quiet and seclusion of his Canadian "Little Grey Home in the West," 25 miles from High River, Alberta, a station on the Canadian Pacific, to rest for a few days, recreate and work far from curious crowds, reporters, still photographers and "movie" men. It is very pleasant, no doubt, to be the most popular young man in the world, but about once a year the rolling hills and rich prairie land of his "B. P. Ranch" call the Prince of Wales, Baron Renfrew or "Davy Windsor," as they refer to H.R.H. in Alberta, back to the land.

The prince is a real farmer and rancher, and is honestly endeavoring to improve the breed of horses, sheep and cattle in Western Canada. His pure-bred, imported animals and their offspring have won many prizes in competition at live stock shows in Western Canada, not because they were from the royal ranch, but because they were the very best exhibited. Since he bought an 1,000 acre ranch in Alberta in 1910, he has been sending to it the best stock he could secure in Great Britain, and every year he sells at auction the surplus animals for the benefit of live stock breeders in the western provinces. The Earl of Minto, who has a big ranch near-by, does the same thing. Alas, King George loans the prince some of his best animals for the stud.

"He's a neighborly fellow," said one of the members of the Alberta Short-horn Breeders' Association, "When he comes out here we don't chase him as they do in other places. We just let him ride, and next thing you know he has all of us neighbors in as his guests, and meets us just as a neighbor. He wants to meet all the ranchers who are his neighbors, and there isn't a thing about ranching he doesn't want to know. His ranch is no fad. He is running it for the benefit of Canada first, and second for the purpose of making the "B. P. Ranch" a business venture, just as any level-headed man would do. When he is on the ranch he wears a 'ten gallon hat,' the same as all of the cowboys, and he does his work like any other ranch hand. 'Regular fellow,' that's what we call him, 'regular fellow.'"

LIQUOR CHARGE
IS DISMISSED

Lacombe, Nov. 23.—The charge laid by the Liquor Control Board against A. T. Jaskip, proprietor of the Adelphi hotel, Lacombe, of allowing drunkness on his premises the first day of July, was dismissed on Friday afternoon by Magistrates Carruthers and Jones, with costs against the

prosecutions.

The case against Mr. Jaskip arose out of statements made by the Rev. Mr. Knight, of Edmonton, in a letter written to his sister, in St. Mary's, Ontario, the Rev. Mr. Knight being very interested in the Ontario liquor plebiscite for government control. While motoring from Calgary to Edmonton on July 1, the Rev. Knight stopped at Lacombe, when he formed

an opinion about which he afterwards wrote to his sister. This letter was published in an Ontario paper, and statements made by the Rev. H. A. Graham, of Ontario, were published in an Edmonton paper.

Under cross-examination it was found that many particulars had been exaggerated by the Rev. Mr. Knight and his companion, Mr. Ball, of Calgary, on July 1, both men being ardent prohibitionists.

JOB PRINTING
The Better Kind

PRINTED STATIONERY is one of the "BIG GUNS OF BUSINESS" Every successful business man uses stationery—Letter Heads, Envelopes, Statements, Bill Heads, Circular Letters, Etc. Without them he would be lost.

The Times can supply your requirements in these lines as well as any city office and at the same prices charged by city shops.

The Wetaskiwin Times
Producers of Printing of the Better Quality

WHITE WYANDOTTES AT EXPERIMENTAL STATION MAKE GOOD RECORD

Lacombe, Nov. 20.—The experimental station reports that one of the March hatched pullets has made good laying record of 58 eggs in slightly less than two months. The dam of the sire of this pullet is a 288 egg hen and the pullet's dam laid 171 eggs in one year. The pen of White Wyandotte pullets which the experimental station entered in the provincial egg laying competition, that is being conducted at the Dominion experimental station at Lethbridge, is standing third in the competition with only eight of the ten pullets laying. The pen standing first has laid a total of 94 eggs in two weeks, while the pen from the Lacombe station has laid a total of 74 eggs during the same period.

HOCKEY PRACTICE

The first official hockey practice will be held this Thursday night at 7:15 sharp. The executive urges that all old players and others who are desirous of catching a place on the team attend this first practice so that some idea may be had of what players are available this season.

THE CANADIAN BIBLE SOCIETY

One of the appeals which usually meets with a hearty response is that of the Canadian Bible Society. Everybody, regardless of religious affiliation, recognizes the value of the bible as an agency making for civilization and higher citizenship, and its distribution throughout the world. In every tongue, is the one unifying agency, which more than any other, is bringing the races of men into one common brotherhood. The bible is now being distributed in 500 different languages, for many of which a system of hieroglyphics had to be invented, and of course the books must be distributed at a figure far below the cost of production if they are to be made obtainable.

The Canadian Bible Society is affiliated with the British and Foreign Bible Society has branches all over the world. A branch for Northern Alberta, situated at Edmonton, is offering the bible in the 35 different languages spoken by those who are making homes in this part of the world. Mr. Alderwood, who is the only paid man on the staff, and has recently been appointed to the Northern Alberta secretaryship, made his first official visit to Wetaskiwin last Sunday, speaking in Knox church in the morning and giving a lantern lecture "Around the World with the Bible" in the Methodist church at night. At a business meeting held after the evening service, Mr. C. A. Morris was re-elected president of the local auxiliary and Mr. J. F. Ellis was made secretary. Plans were made to complete a canvass of the community for funds to promote the work, which is already under way, and it is hoped that the people will deal generously with the canvassers when called upon.

NUGGETS

What you are worth is what you are. No man can succeed unless he has faith in his own ability. Success comes when a man has something to do and does it to the best of his ability. The man who does what he pleases is seldom pleased with what he does. Don't look for trouble unless you know what to do with it when you find it. No man has a thorough taste of prosperity to whom adversity never happened. If you have half an hour to spare don't spend it with one who hasn't. Phone, mail, or hand in your news items to The Times Office. Phone 27.

Crossed Atlantic Unafraid

Little Samuel Molyneux arrives

A very pathetic figure, as he stepped off the Canadian Pacific train, between the conductor and an official of the department of immigration, into the noise of shunting trains, the confusion of hurrying express trucks, and the bustle that attends the arrival and departure of friends, Samuel Molyneux, 308 Oakwood Avenue, Toronto, as the label on his little bag proclaimed him, paused for a moment, and then, overcome by a sense of loneliness produced by the loss of his friends of ship-board and train, burst into tears. A second later he was seized by his mother, from whom he had been separated for one and a half of his four years, and sobbed himself to contentment in her arms.

Samuel came to Canada on the Atlantic, making the complete trip from the old land to Toronto by himself. Samuel was a favorite on ship-board, according to reports. He became particularly attached to the ship's nurse but was the pet of all the passengers and crew.

W. C. T. U.

"Booze and Citizenship" Father Minchin of Toronto, gave an address at the recent W.C.T.U. convention of Ontario held in that city and was listened to with keen attention and interest, as he developed his theme of booze in relationship to citizenship. He declared his conviction that prohibition was the foundation of good citizenship. He had been a total abstainer from the date of entering the priesthood. However, in pursuit of his sacred calling he had seen that prohibition was a great necessity. He reviewed the matter briefly from the standpoint of lowered efficiency, economic waste and effect on the physical and intellectual life of the young, and summed up by saying that anything that blasted the physique and mentality of the children, who were the hope and asset of the nation, reflected upon the country an economic waste that cannot be fully estimated.

It is productive or tagetless from the moral and spiritual aspect. And altogether he was driven to the conclusion that you cannot give booze a foothold anywhere or it will inevitably creep in. Father Minchin quoted some inconsistencies of modernization, as shown in "Saturday Night," where they advocated respecting the O.T.A. because it is broken, but a stricter enforcement of the saundling acts to prevent smuggling.

We are trying to develop our country and we want to secure true happiness and good citizenship and prohibition will do more than any other human agency to promote this. We must hope, pray and work. We feel the need of greater education and more stringent law enforcement. Good citizenship involves a higher sense of responsibility.

THE REASONS WHY

Reasons why Western Canada offers unrivalled opportunities for stock raising of all kinds may be briefly summarized as follows:

The climate is favorable. Land is cheap. Food is plentiful and cheap, because of the heavy yield on cheap land. Natural pasturage and wild hay are plentiful and very rich in feed value. Good water is abundant.

The market for finished stock or for feeders is steady, and takes the whole supply at all times.

The country enjoys good railway facilities, making access to market easy at all times of the year.

Disease is practically unknown in western Canada among livestock, partly because of constant government watchfulness; but mostly because the climate and country are naturally healthy, wholesome, and the abundant sunshine all year round, and the dry winters, are ideal for keeping stock in the best of condition.

CHANGING OF SEED GRAIN

A common question asked by farmers is "Does It Pay to Change Seed?" The inference here is that where the same seed has been used on the same farm for a few years, it may deteriorate in its ability to produce a profitable crop. It is also a common belief that one operating a farm characterized by relatively light soil should change his seed frequently from a crop which has been produced on soil of a heavier quality and vice versa. Some authorities have scoffed at the idea that a change of seed is ever necessary. They argue that seed grown year after year in a district must of necessity become acclimatized and better adapted to the soil conditions of that district. It is safe to say that many farmers have followed this advice in their financial loss.

Investigation and observation have revealed the fact that it is not possible to lay down any definite rule as to when seed should be changed. It is obvious that certain circumstances must arise to make the change of seed appear imperative, even to the casual observer. For instance, a crop may be so badly damaged through lack of moisture or by some condition which has forced premature ripening, as to cause the resulting grain to be very light and poor. Under such circumstances, it would, of course, be folly to think of using this grain for seed. This, however, is an extreme case. The problem to determine is whether, under normal circumstances, one may expect a larger crop from the use of seed grown elsewhere than on the farm on which it is intended to be used. Without going into detail, one may safely follow the rule to change seed only when seed may be obtained which possesses a higher degree of development and vigor than the home grown. This is assuming that the home grown seed belongs to a suitable variety for the district and is free from noxious impurities. If the latter provisions are not complied with, the seed, of course, should not be used under any circumstances. Farmers who contemplate changing their seed and whose seed is reasonably good, at present, would be well advised to procure some first class registered seed through the Canadian Seed Growers' Association at Ottawa and test this in comparison with

WATCH THE ASH PAN

Ashes allowed to accumulate in the fire box of a stove will cause the lining to burn out. Ashes will also interfere with the heating of the rest of the stove. To prolong the life of a stove keep the ash pan empty. When a full pan of ashes becomes hot, it will keep the grate of the stove so hot that it will warp and burn out. Sometimes cause the oven to warp. When a housewife tries to build a fresh fire in a stove with a full ash pan, she will have to take twice as long before she gets her stove heated satisfactorily. It is also a waste of good fuel.

SEVERAL FAMILIES ARE TO LOCATE ON FARMS IN DAYSLAND DISTRICT

Daysland, Nov. 16.—Seven more families from the dry belt arrived in Daysland on Friday, including about 50 persons and many carloads of effects. These came from Thurston and Foremost. Two families are being located on the A. J. Moore farm, better known as the Pauls place, and others on the D. Nicholson and Paris places. T. Palfrey and his department hope to have all located soon on farms.

GOOD EXCUSE FOR LYING

When Jones' rich grandmother passed away, all his poverty-stricken friends rallied round him with words of cheer and comfort. But Jones remained sad and dejected.

"She left a last will and testament, I suppose?" murmured Jenkins carolously.

"Oh, yes," said Jones, "she left a will and testament."

They waited expectantly, while sobs choked back his words. "It" he declared at last, "am to have the testament."

Says Few Churches To Keep From Union

Toronto, Nov. 24.—In a forecast tonight, Rev. Dr. R. J. Wilson of the Presbyterian union committee, stated that not more than six Presbyterian churches in British Columbia, not more than half a dozen in Saskatchewan, and not more than a dozen in Alberta will stay out of the United Church of Canada. He stressed the point that the legislation passed by the Dominion government made it clear that the Presbyterian Church in Canada would go into the new church as the Presbyterian Church in Canada. That meant, he said, that the churches staying out of the union could not carry on under that name.

PUBLIC NOTICE

To the Citizens of Wetaskiwin and District.

On account of certain rumors circulating in the city and district regarding the case of the late Mrs. Priestly and her connection with the Wetaskiwin City Hospital, the Hospital Board wish to make the following statement.

At a special meeting of the Hospital Board held in the council chamber on Tuesday the 25th instant, an inquiry and full investigation was made into the circumstances of the case and allegations made by certain parties. Three of the Doctors connected with the case and three of the Nurses attending the case were examined and gave evidence.

Mr. S. Priestly, husband of the deceased, was also called and several members of the board gave evidence as to the opinion of those outside. After full investigation of the Board the following resolution was passed: "That the Hospital case of the late Mrs. S. Priestly has been investigated by the members of the Hospital Board and from the statements made by Doctors and Nurses in attendance on the case they find that the rumors detrimental to the Hospital that are in circulation are positively unfounded."

The following is a signed statement given to the Hospital Board by Mr. S. Priestly:

"For the benefit of all those concerned, I wish to make this public statement: that my wife, the late Mrs. S. Priestly, was never at any time during her recent illness refused admittance or attendance or in any way slighted by those connected with the City of Wetaskiwin Hospital, but that instead, she left the care of the Hospital with the permission of the Doctor who was attending her and of her own free will and expressed wish. I also wish to state that in Mrs. Priestly's trying illness both the Doctors and the Hospital have done all they could—Sergeant Priestly.

On behalf of the Hospital Board, (Signed) Curt Smith, Chairman.

LIQUOR PRICES, FREIGHT TARIFF SHOW INCREASE

Winnipeg Nov. 21.—Stressing the fact that the loss to the railway companies through theft of liquor in transit from the seaboard and damages had been reduced to a minimum, H. J. Symington, K.C., in appearing before the board of railway commissioners here yesterday, asked for a change in the classification of this commodity. The idea, he said, of wine and whiskey, with its weight and the cubical space it occupied being in the same class as canoes, furniture and empty boxes, was ridiculous, and of which are in the double first classification, while furs, sometimes of great value, are only in class one.

Mr. Symington, who represented the Ontario, Manitoba, Saskatchewan, Alberta and British Columbia governments, appealed for reinstatement of the rates in effect before 1920. Evidence was submitted by H. H. Shiel, traffic manager of the Manitoba liquor commission, showing that the freight rates on liquor today were as much as 382 per cent. higher than in 1917, and that the damage to goods in transit averaged only 1.86 per cent of the amount paid to the railway company in freight charges. A. Chard, supervisor of traffic for Alberta, stated that the claims against the railways in Alberta, for damage to liquor shipments to the government of Alberta, amounted to 1.66 per cent of the freight cost.

L. F. Roycraft, K.C., representing the Canadian Pacific Railway, in asking that the rate remain as it is at present, pointed out that in 1917 a case of gin, containing 15 bottles, sold for \$14, whereas today it realises a price of \$65.50. Under the classification in existence in 1917 the freight on a shipment was 64 cents a case, and today it was \$13.75, or an increase of 115 per cent, while the value of the liquor had gone up 406 per cent. Policing of liquor shipments was another heavy expense, and cost \$124,551 in 1923.

Mr. Symington, in his rebuttal of the argument, emphasized that the heavy excise duty had to be considered in the cost price to the consumer, and that the Manitoba government liquor commission paid in freight charges in the first year of operation, \$125,000. Judgment was reserved.

How To Dress Turkeys

Slit the bird for 24 hours before killing, but water can be given. Tie the bird's feet together with a string and hang up. Then open its mouth and cut the two veins on the sides of the throat, using a broad bladed knife with a double edge. Then stick the bird in the brain by driving the knife through the roof of its mouth until the knife hits the skull. Turn the knife before withdrawing it. Sticking the bird in the brain paralyzes it and the muscles immediately relax.

You should start to remove the feathers at once, pulling the large wing and tail feathers with a twisting movement. Be sure that the bird is bleeding freely and in order to keep the blood from spashing on the work, or a small tin pail can be hung on the bird so that its head is inside the pail.

Remove all the feathers, then hang the bird up to cool for at least 24 hours before packing. Don't let the bird freeze and do not keep it too warm a temperature. When the heads before packing and line the boxes in which the birds are packed with paper and put paper between the layers of birds. Do not pack turkeys in large crates as they are apt to bruise easily. Use small boxes that will hold about twelve birds or so apiece. Do not trust or tie the birds with string or binder twine. This is apt to make them sweat.

No. 2 turkeys are graded down for the following reasons: Crooked breast, bruises, torn skin, thinness, readiness (caused by insufficient bleeding). Do not remove the feet or head and do not draw them. Tag crates on both ends and put another tag inside the box.

The death of a sparrow saved the life of a prominent St. Thomas business man Tuesday. The man was warning the motor of his automobile by letting it run in his garage. In a couple of minutes a sparrow fell at his feet and as he stooped to pick it up he felt a dizziness creeping over him. He rushed out of the house and the fresh air revived him. Carbon monoxide gas fumes from the burning gasolene had killed the sparrow, and undoubtedly would have overcome the man.

Twenty strokes of the lash and seven years imprisonment in the Prince Albert penitentiary was the sentence imposed on Fred Krotz, of the Bruderheim district, by Judge Taylor in Edmonton, Thursday, when the accused pleaded guilty in a charge of incest.

BIG BANK FRAUD PLOT REVEALED

Edmonton, Nov. 20.—One of the most highly organized systems of bank frauds in Western Canada is thought to have been unearthed and brought to a close as a result of the investigations conducted during the past three months under the direction of Detective Reynolds, finger print expert of the city police. One of the alleged principals, a man giving the name of Nick Shumsky, with a big head of alices, has been arrested in Regina and will be brought back to the city to face four charges here. Another is under arrest in Winnipeg and will be returned to Edmonton in the course of a few days, while others are under suspicion. Banks are said to have lost \$10,000 by forgeries.

The frauds on the branch of the Bank of Montreal were put over by means of forged cheques of \$150 and \$350, in which the name of Sam Boychuk, a well known city rooming house keeper, was used. It was not until nearly a month after the cheques had been cashed that it was discovered that they were forgeries.

Even then the initiation of handwriting of Boychuk was so well done that no one but an expert would be able to detect the difference. How the members of the gang were able to effect the Edmonton fraud is an interesting story.

COMMUNICATION

We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.

Editor, The Wetaskiwin Times: Dear Sir—Will you please grant me space in your paper for a few remarks on a nuisance that is going on in this city—one that is costing those who own unoccupied houses in the city considerable money. A man may have a house or other building here and have occasion to leave town for some time, and when he returns he finds windows broken and other damage done to the property. The man has been paying taxes to the city and would naturally expect that his property would receive some protection.

Now, those of us who are suffering these things feel a little like the man who went about in the 16th chapter of the gospel by St. Luke. He was going down from Jerusalem to Jericho and fell among thieves, and our city fathers would compare with the Priest and Levite who looked on and passed by on the other side. We are really in need of a good Samaritan to come along and apply a remedy. Allow me to suggest that parents and Sunday school teachers might instruct the young in the mean-ness and sinfulness of destroying their neighbor's goods.

Yours, "Sufferer"

UNRESERVED AUCTION SALE

HORSES, CATTLE, IMPLEMENTS AND HOUSEHOLD EFFECTS

The undersigned Auctioneer has received instructions to sell by Public Auction on S.W. 23-46-23-14, 1½ miles north-east of Wetaskiwin, on the Henry Hay Farm, on

THURSDAY, DECEMBER 4

At 12:30 sharp, the following:

HORSES—Black Mare, 8 years, 1600; Black Mare, coming 4, 1150; Child's pony, weight 1000; Sorrel Mare 5 years, 1000; Bay Driving Mare, 7 years, 900.

TERMS—CASH

Free Lunch at Noon, Sale at 12:30.

Everything must be sold as Owner is going to U.S. Nothing to be removed until settled for.

ROY NOE, C. MAYGARD, Auctioneer

MAKEWEIGHT

"Can't you throw in something else?" asked the old lady who had purchased a halfpenny's worth of carrots. The greengrocer waxed wrath and sarcastic. "Certainly, madam," said he. "If you will sit down and wait until the boy returns with the cart I will throw in a sack of potatoes and a barrel or so of apples. And while I'm about it I will give you a hundredweight of turnips and a box of oranges. And," he shouted after the old lady, as she indignantly flounced out, "I may as well throw in the horse and cart as well, and if that isn't enough come back for the shop."

BIG OCEANIC AIR FLEET IS PLANNED BY THE U.S.

Washington, Nov. 16.—A contract for a naval flying boat capable of making a sustained flight from the west coast to Honolulu, has been signed by the bureau of naval aeronautics. Specifications call for a proven capacity of five passengers and a ton of freight.

The contract was regarded in naval circles as the first step toward organization of a special fleet auxiliary capable of independent operation 2500 miles from a permanent base.

Make all you can honestly. Save all you can carefully. Give away all you can modestly.

RHEUMATISM

Comes From Uric Acid In The Blood

Mr. Clifford Poirie, 657 King St. E., Hamilton, Ont., writes:—"About six months ago I became troubled with pains in my back, and when I stood over I felt as though I could never straighten up again."

"I thought the best thing for me to do was to see a doctor, and he said that I was troubled with rheumatism."

"After taking his treatment for some time, I did not get rid of my pains, in fact, they were getting so bad I could not sleep or rest at night."

On January 4th, 1924, I was reading one of your Almanacs, and it told me just what was wrong with me. I lost no time in sending for a box of "Doan's," and had only taken them a few days when my rheumatic pains began to leave me."

I can truthfully say that Doan's Kidney Pills are second to none."

Outlook For Strictly Finished Cattle Is Exceptionally Bright

Prospects for the Alberta livestock trade are first class, and conditions in the industry generally are at present fairly satisfactory, according to H. P. Kennedy, well known livestock operator of Toronto, who was in Edmonton the first part of the week. Mr. Kennedy qualifies this, however, by pointing out that it applies only to strictly finished cattle, and it is for that grade of stock that he is particularly optimistic for the coming season's business.

"The Toronto dealer has come to Edmonton to inspect some 2,500 head of cattle that his company is feeding here adjacent to the stock yard premises. An experiment was made last winter with 400 head, and the results were so good that a substantial increase was made, five times as many animals undergoing the finishing process during the coming winter. The Kennedy Co. believes that Edmonton has the natural advantages that make it the best and logical place for this work."

"We have had several orders in the last few weeks," Mr. Kennedy says, "for strictly choice steers weighing from 1300 to 1500 pounds for shipment to Great Britain and Belgium. We have also had a large number of orders for short-keep feeders for shipment to Ontario and Pennsylvania farmers and to Great Britain. The price being paid in Edmonton for the best steers is 4 1/2 to 5 cents per pound, and this makes it possible for stock to come in from outside points on a profitable basis. We have had shipments into Edmonton from as far east as Saskatoon, and from Calgary, Lethbridge and Medicine Hat."

The shortage of the corn supply in the United States with high prices prevailing in Canada and elsewhere for No. 1 grain, will have a considerable effect on the industry here, Mr. Kennedy thinks. As a natural result of these conditions, not as much feeding is being done by big feeders in the States or by Canadian farmers as a year ago.

"The outlook for strictly finished cattle, to go on the market next April, May and June, is exceptionally bright," said Mr. Kennedy. "Even with the grain prices higher, Alberta farmers will be making a mistake if they market their unfinished cattle now. It would be much better business for them to take their cattle back, finish them up through the winter, and sell next spring. That is the plan we are following ourselves by feeding 2000 head over the winter in Edmonton, and we believe it is the best policy for the farmers also."—Journal.

Every time a man tries to get something for nothing he acquires a little more experience.

CARE OF COLTS

The condition of the horse market during the past number of years has been rather discouraging to horse breeders; consequently fewer mares have been bred, with the resultant decrease in the annual colt crop. Young horses, and especially colts, are scarce, and this condition is noted all over the Dominion. But the past year has seen an improvement in the market.

It is important in the raising of good quality horses that farmers and breeders pay the utmost attention to the present foal crop. Generally speaking, on the average farm, colts as a rule take poor care. Growth and development during the first two years of a colt's life means the difference between success and failure. It is, therefore, important, after weaning, to see that the colts get a fair chance in life. They should have the right kind of feed to promote maximum growth. Alfalfa hay is considered one of the best roughages for young colts. Western ryegrass and timothy are excellent, and good oat straw will be found valuable if other forages are not available. In addition to the above, the youngsters should have a liberal ration of bruised or rolled oats. There is not necessary when alfalfa hay is being fed. However, it should be included in the ration when western ryegrass, timothy or oat straw are used.

Keep the colts growing, thrifty and not excessively fat. Provide a roomy box stall, with plenty of ventilation. Keep the manure cleaned away every day; too often the feet are spoiled by excessive accumulation of heating manure in the stalls. Handle the colts quietly and learn to lead; this training will help considerably when trimming their feet, which should have attention every month or six weeks. Keep their feet round and level on the soles. This tends to prevent the feet from breaking and the heels from contracting. Many good horses have been ruined through lack of attention to their feet.—Experimental Farms Note.

FARM IMPLEMENTS TO BE NOTICEABLY LOWER IN PRICE, SAYS MOTT

Winnipeg, Nov. 16.—"We implement manufacturers fully realize that the farmers and ourselves must move hand in hand and, as far as my firm is concerned, I will say that next year there will be a noticeable reduction in prices," stated A. E. Mott, president of the Cockshutt Plow Company, of Brantford, Ont., during an interview here. Mr. Mott is en route home following a western tour, and found conditions "hopeful for the future."

Wine is like anger, for it makes us strong, blind, and impatient, and it leads us wrong; the strength is quickly lost; we feel the error long.—Cradock.

Appointed Director Canadian Pacific

Ross Huntington McElmaster

The recent election of Mr. Ross Huntington McElmaster to be a director of the Canadian Pacific, filling the vacancy created on the board by the death of the late Lord Dufferin, is a recognition of the Company's part of his long and able service. Mr. McElmaster is already vice-president and director of the Steel Company of Canada and director of the Northern Electric Company, as well as the Canadian Explosives Company. Born in Montreal in 1880, he has lived practically all his life in that city. He was educated at the Montreal High School and Collegiate Institute. His business career began with the Sherwin Williams Co., of which he became assistant vice-president and general manager in 1907, a post he held until 1903. In the latter year he was made assistant to the vice-president and general manager of the Montreal Rolling Mills Company. In the formation of the Steel Company of Canada he was appointed manager at Montreal.

PERSONALITY

What is personality? The outer aspect of an individual.

It can be developed just as easily as one develops his physical life. A woman develops her beauty, a man develops his physical prowess—why not develop the personality?

What are the basic principles of personality? Mental attitude and physical attitude. The mental attitude embraces one's intelligence and one's knowledge; the physical has to do with the manner, gesture and appearance.

Is personality, acquired through formula, apt to be insecure? No! More than acquired knowledge is apt to be inaccurate. Personality may be described as the show-window of your character. If your character is good the display reflects it as such.

What are the chief benefits of developed personality? Self-confidence, poise, charm. Material benefits cannot be measured. There is no question that lack of good personality handicaps one, while the possession of it can make one great.

If you desire personality the desire itself is evidence that you possess it. Perhaps you lack the secret of displaying it. That secret you can learn.

LARGE BLACK ENGLISH PIG HAS ARRIVED

(By A. M. Steele, Red Deer)

"There is a popular saying that 'pigs is pigs.' And that is true; there are differences between breeds, and all who know anything about them agree. All of them have some good outstanding point which is extolled by more or less numerous supporters."

At present the Yorkshire and the Berkshire seem to hold the field in popular esteem, both as bacon makers and porkers, but of late a rival to their claim as chiefs of the clan has arisen. The Large Black (English) pig has arrived.

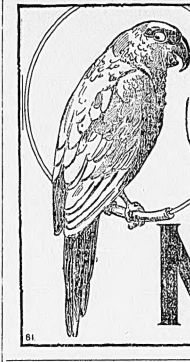

These scions of an old English stock which for more than one century has held the premier place in the esteem of bacon epicures and made the term "Wiltshire sides" the apical test of quality the world around, seem to be peculiarly suitable to the Canadian climate, since they thrive in the cold of its winter and resist the effects of its blazing summer sun. They thus make a claim on the Canadian farmers' attention.

I have seen them foraging during the coldest days, and remaining without speech or bleating, of autumn through the hottest and clearest of sunny Alberta's weather. These are good and profitable characteristics in which—in either, or both—they surpass other breeds.

After eighteen months' careful observation at the Hartwell Stock Farm, Willowdale, Red Deer, the following conclusions have been arrived at: Large Blacks are first rate foragers winter and summer.

The yolk mixers, a constant source of musing.

The young sows are quiet and docile, permitting the attention of their attendant at farrowing time; the older sows improve even, in this respect.

Polly want a cracker?

UNIVERSITY OF ALBERTA WINS CHAMPIONSHIPS IN BEEF STEERS

Toronto, Nov. 23.—All the championships for pure bred steers at the Royal Show, went to Western Canada this year. Alberta University won the Shorthorn championship, with the calf presented by W. W. Sharpe, of Stettler. A senior yearling bred by the University won the Hereford championship, and it was a University steer sired by Blackcap Revolution, that won the Angus championship. In addition to this the University won second in junior yearling Shorthorns, with Clark's steer; first and third for junior Hereford yearlings, with one of

their own breeding; second with the Purdue steer, second and sixth for senior Hereford calves, with their own breeding; first for junior yearling Angus, with the Clenens steer; third in the same class with the Dickson and Hunt steer; third for senior Angus calf with the calf donated by the Lacombe experimental station; and sixth for junior calf with their own breeding.

The Prince of Wales won first for senior yearling Shorthorn steers. Only one of the steers shipped from Alberta, remained unplaced.

University of Alberta Hampshire ram lambs were placed first and fourth, in strong competition. The Lacombe Shires had little difficulty in taking off the mare and stallion championships. Frank Colcutt won the Hereford class for Get-of-Sire, Dags, third and fourth.

Cullent was second for Progeny of Cow, with Dags third and fourth. Henderson of Lacombe, had first in Angus for three Get of Sire, and second for Progeny of Cow.

At the second annual sale of Short-horns, held under the auspices of the Dominion Shorthorn Breeders' association, twelve bulls averaged \$245, and twenty females \$247. The top price was paid for a Rosewood heifer consigned from the E.P. Ranch by the Prince of Wales, which brought \$750. The top price for bulls was \$500 for a yearling bred by H. McGee. Some of the good ones will go to Alberta herds.

J. Vais is just "rubbed out" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so afflicted, Vicks VapoRub, for breaking children's colds. Mrs. Emma writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have used it with very satisfactory results for head and chest colds."

BUFFALO AND ELK FOR STANLEY PARK

Valhalla, Alta., Nov. 21.—Two
 buffalo and two elk from the large
 herds here are being crated for trans-
 portation to Stanley Park, Vancouver.
 The Dominion park here is also
 getting ready for shipment two elk
 for the park at London, Ontario.
 Chippewa Park at Fort William will
 be the proud possessor of an early
 date of two elk from the range here
 also.

Rev. Mr. Alderwood, representing
 the British and Foreign Bible So-
 ciety, was in the city on Sunday last
 and preached in Knox church in the
 forenoon and in the Methodist church
 in the evening. After the evening
 service, the Wetaskiwin branch was
 re-organized, when Mr. C. A. Morris
 was re-elected president, and Mr. J.
 P. Ellis was elected for another year
 as secretary-treasurer. The ministers
 of the city with the above officers will
 form the executive committee.

CITY OF WETASKIWIN'S Ratepayers' ANNUAL MEETING

The annual meeting of the Ratepayers will be
 held in the

ANGUS THEATRE

on
WEDNESDAY, 3rd DECEMBER
 at 8 p.m.

Mayor H. J. Montgomery in the Chair

A review of the City's Finances will be given
 and reports will be presented by the several
 Aldermen on the work of their different com-
 mittees.

Public and Separate School Trustees and Hos-
 pital Board will be represented.

An opportunity will be given to any candidates
 for the forthcoming elections to address the meet-
 ing.

A large attendance is requested.

H. J. MONTGOMERY,
MAYOR

CITY OF WETASKIWIN CITIZENS And RATEPAYERS

who have not paid 1924 Taxes are notified
 that to

BALANCE THE BUDGET

and prevent a deficit being added to the
 MILL RATE next year, it is an imperative
 necessity that an endeavor be made to pay
 this month if possible.

To assist those who have not paid, the

J. E. FRASER
CITY TREASURER

TOWN TOPICS

Mr. and Mrs. Holby, of Lloydmin-
 ster, are visiting at the home of their
 son, A. Holby, for a few days.

The family of Fred Macfarlane re-
 turned to the city Tuesday from Ed-
 monton, and will now reside here.

The friends of Wm. Brown will be
 regret to learn that he is confined to
 the house for a few days through ill-
 ness.

Mrs. A. R. Dickson left last week
 for Vancouver, having been summoned
 on account of the serious illness
 of a relative.

Mrs. A. E. Copeland of Midland,
 Ont., arrived in the city a few days
 ago on a visit to her sister, Mrs. H.
 C. Cooke.

Parties having fancy work for the
 W.M.S. bazaar are requested to leave
 same with Mrs. J. P. Johnson or Mrs.
 V. C. French not later than Dec. 10.

Q. Carsell, who has been taking
 charge of some of the customs out-
 posts while the officers were taking
 their vacations, returned to Wetaski-
 win the fore part of the week.

The Willing Workers of Knox Pres-
 byterian church will hold their 4th
 quarterly tea in the Sunday school
 rooms on Thursday, Dec. 4th, from 3
 to 6 p.m.

The Husters Club of the Methodist
 church will present a minstrel per-
 formance in the church on Friday ev-
 ening next, which nobody who enjoys
 a laugh should miss.

The Scandinavian Hospital Aid So-
 ciety will meet at the home of Mrs.
 Howard Poe on Tuesday afternoon at
 2:30 o'clock. All members are urged
 to attend.

A regular meeting of the Peace Hill
 Chapter, I.O.O.F., will be held at the
 home of Mrs. C. B. McMurdo on Tues-
 day evening, December 2nd. A full
 attendance is requested.

The friends who worked so hard to
 make the hospital bazaar a success
 will be glad to know that the amount
 made by the fancy work booth has
 reached the sum of \$390.10.

The Willing Workers of Knox Pres-
 byterian church will hold their 4th
 quarterly meeting in the Sunday school
 rooms on Thursday, December 11,
 from 3 to 6 p.m.

Rev. W. J. and Mrs. James enter-
 tained the parishioners of Immanuel
 Church in the parish hall, on Wednes-
 day evening at "500", followed by an
 informal dance. A number of guests
 were also present from Ponoka.

The Norwegian Ladies' Aid will
 serve a "Lutefisk and Tefse" supper
 at the U.F.A. hall on Friday, Novem-
 ber 28th, from 5 to 8 p.m. There will
 be a sale of fancy work in the eve-
 ning.

The friends of Mr. W. W. Gates,
 who has been ill for a considerable
 time, will regret to learn that he is
 still confined to his bed, and the fam-
 ily are unable to report satisfactory
 progress.

Dr. and Mrs. McColgan, of Jackson,
 Mich., who have been visiting at the
 home of the former's brother, Dr.
 A. S. McColgan, left Tuesday morning
 en route for Los Angeles, Cal., where
 they will spend the winter.

On Monday evening the Oddfellows
 and Rebekahs held a social evening
 in their lodge room when an enjoy-
 able time was spent by a good crowd.
 The fore part of the evening was spent
 in card playing, while after lunch an
 impromptu dance was put on.

A preliminary debate of the high
 school debating society, will be held
 in the Parish Hall at 8 o'clock on
 Monday evening next. Admission
 will be free, and it is the wish of the
 society that a good audience be pre-
 sent to hear this preliminary debate.

The annual meeting of the Hospital
 Aid Society will be held in the sur-
 ges' sitting room on Tuesday after-
 noon, December 2nd, at four o'clock.
 All members are urged to be present
 as the election of officers will take
 place and other important business
 will be transacted.

Mrs. J. E. Gullberg and family left
 on Friday last for Gunne, Alberta,
 where Mr. Gullberg has opened a gen-
 eral store. Their host of friends join
 in wishing them every success in their
 new home, and should they at any
 time decide to return to Wetaskiwin
 to live they will be extended the heart-
 est welcome.

W. F. H. Montgomery, who left last
 week for the U.S. with the largest
 consignment of silver faxes ever ship-
 ped out of Western Canada, returned
 home last evening. The journey
 was made without mishap or in-
 convenience, and every one of the
 forty-two animals was delivered to the
 purchasers in Spokane and Pomeroy,
 Wash.

 2:30 p.m.—Sunday school and adult
 bible class.
 7:30 p.m.—By special request the
 pastor will explain what will take
 place on June 10th, 1925, when the
 Church Union Bill becomes law.

Miss Edith Mickelson, of Eugene,
 Oregon, who has been visiting Mrs.
 H. W. Wright during the past week,
 was the guest of honor at a linen
 shower given by Mrs. P. A. Miquelon,
 Mrs. Wright, and Mrs. Mubarra, on
 Thursday afternoon. Miss Mickelson's
 marriage to William Jones, of Port-
 land, Oregon, is to take place early in
 the new year.

WINS GOV.-GENERAL'S MEDAL

New Norway school has the distinc-
 tion of obtaining the Governor-Gen-
 eral's medal for superior answering at
 the recent public school leaving ex-
 aminations.

This coveted prize was awarded to
 Miss Viola Bergen for having secured
 the highest aggregate marks among
 Grade VIII candidates in the Cam-
 rose Inspectorate.

U. F. A.

The Cherry Grove U.F.A. and U.F.
 W.A. will meet at the home of Mr.
 and Mrs. Frank Ballhorn on Monday
 evening, December 1st. All members
 are requested to attend.

NOW PRINCE GEORGE CITY POLICE CHIEF

F. W. Shelton, the man selected by
 the board of police commissioners to
 handle police matters for the city, ar-
 rived in town on Saturday evening,
 and at once took charge. The new
 officer is an Englishman, but has re-
 sided in Canada for several years,
 and has all told about sixteen years
 experience to his credit in police
 work in different parts of the Domini-
 on. He is 35 years of age and im-
 presses one as being very fit phys-
 ically. A great deal of the police
 experience of Mr. Shelton was gained
 in the federal government ser-
 vice, he being stationed in the Hud-
 son's Bay district for a considerable
 period. The last position occupied by
 him was at Wetaskiwin, Alberta. His
 experience covers detective work in
 a number of cities and he is recognized
 as a finger-print expert both in
 Canada and the United States. He
 has been engaged by the commission-
 ers at a salary of \$150 per month.—
 Prince George Citizen.

Radio Waves Re-Assigned To Avoid Chance of Clash

Ottawa, Nov. 22.—The reassignment
 of waves to radio broadcasting stations
 in Canada and the United States has
 not yet been completed, according to
 information furnished yesterday by
 the radio branch of the department of
 marine and fisheries. At present
 Washington is busily engaged work-
 ing on the United States assignment,
 and Ottawa on the Canadian, and the
 two lengths will be so arranged as
 to avoid conflict between the Cana-
 dian and American stations. The
 changes, it is understood, will become
 effective about the end of December.

BORN

FRIEMAN—Near Wetaskiwin, on
 the 25th inst., to Mr. and Mrs. Chas.
 Frieman, a daughter.

LAKE—At the Wetaskiwin Hospital
 on the 23rd inst., to Mr. and Mrs.
 Ed. Lake, twin daughters.

CHANDLER—At the Wetaskiwin
 Hospital, on the 22nd inst., to Mr. and
 Mrs. Herbert Chandler, of Bulwark,
 Alberta, a son.

TOWN TOPICS

The provincial convention of the
 rural municipalities is being held in
 Calgary on Wednesday and Thursday
 of this week. Among those in at-
 tendance are Reeve A. S. Craig and
 Coun. L. H. Neville of the M.D. of
 Montgomery; Reeve J. Ratnay and
 Coun. Olson of the M.D. of Bigstone,
 and Coun. H. J. Miller of the M.D. of
 Columbia.

A very enjoyable dance was held
 in the U.F.A. hall on Friday, November
 21. At the supper recess the baseball
 trophy was formally presented by
 P. Noon to the Cherry Grove club as
 the champions of the Wetaskiwin
 Amateur Baseball League. W. Reck-
 nagle, captain of the Cherry Grove
 team, very fittingly replied, and hu-
 morously remarked that while some
 of the cherries had been picked off
 the team they hoped to be able to
 defend the cup successfully next year.

BUSINESS LOCALS

***Remember the bazaar to be given
 by the W.A. of Immanuel church in
 the Elks' Home on Saturday of this
 week.
